

# ESCAPE-CHAIR®

## ST model

**With the help of the Escape-Chair®, only one operator is needed to assist a mobility impaired person down the stairs to safety.**

Advantages Escape-Chair®:

- needs one operator only
- ready to use in seconds
- does not block the stairways
- **you** decide how quickly you descend
- easy participation of the evacuation flow
- fits into every safety plan

The Escape-Chair® comes in various designs:

- ST-B
- **ST**
- ST-PLUS
- CF

CF model

## Escape-Chair® ST
