

*Lightweight but heavy duty,  
this multi-purpose strut  
is the ultimate Res-Q-Jack.*

The **Aluminum X-Strut** is our premium level strut, built from 6061-T6 aluminum and boasting a 4550 kg. SWL without adding significant weight. With the X-Strut's **Add-On-Jack technology** delivering 2750 kg. of lifting power, this strut is heavy duty in a manageable package, allowing for easy deployment and the ability to focus on a potential victim inside the vehicle.

*Great for departments who see heavier vehicle accidents frequently or who want the added security of our highest working load, the Aluminum X-Strut is a lightweight but high-performance strut.*
