

BRIDGEHILL

WE SIMPLY BLOCK FIRE

CAR FIRE BLANKET

Product information:

- Controls fire in any car within seconds
- The most efficient solution for isolating fire in electric cars
- Suitable for all vehicles including SUVs, like XC90 and Land Rover
- Delivered in a smartbag and requires no maintenance
- If kept in the smartbag the fire blanket has a lifetime warranty

Size: 6 x 8 m | **Weight:** 28 kg

Suitable for:

All places with a high concentration of cars for example:

Car parks • Car garages • Ferries • Petrol stations • Charging stations • Car repairs • Car dealers • Tunnels

How to use:

Handled by: 

1. Place the fire blanket on the ground in front or back of the car and roll it out.
2. Both grab your handle and pull the fire blanket safely over the car in one continuous movement.
3. Make sure the fire blanket is tight to the ground. Wait at least 20 minutes and let professional firefighters remove the fire blanket.

Fire in electric cars:

If you can hear strong fuzz sounds about every 2-15 seconds, you have a thermal runaway. Leave the fire blanket on until the sound stops. Thermal runaway is a small fire that goes from cell to cell. The fire blanket will prevent the small fire from spreading elsewhere in the car.

Always call professional fire fighters when a fire breaks out
