

## DN33 INDOOR HYDRANTS

The HW-33 hydrant with hose inner diameter of 33mm is available as an individual hose reel or in cabinet. The specially designed 180° swivel arm makes it possible to transfer the hose reel weight and provide water to hose at the same time. All steel elements are galvanized to ensure anticorrosion protection and long service life. The DN33 hydrant meets the requirements of EN 671-1.

HW-33

Individual hose reel			
Model and hose length	Hose reel diameter (mm)		
HW-33ZWN-R-20	500		
HW-33ZWN-R-30	600		
Hose reel in the cabinet			
Model and hose length	Width (mm)	Height (mm)	Depth (mm)
HW-33N-20	1120	900	450
HW-33N-30	1120	900	450

Product protected by patent rights across the entire European Union area, issued by the Patent Office of the Republic of Poland.

## UN GENERAL PURPOSE MODEL / DN52 INDOOR HYDRANTS

### Versatile design

The DN52 hydrant design makes it possible to connect a valve on the right or on the left side of the cabinet, with the door opening to the right or left, respectively. Each cabinet is equipped with two sets of holes made in side of the cabinet body. This way the installer decides for himself which side to install the water supply and which way the door should open, by rotating the cabinet by 180°.

### Kombi or individual model

The DN52 hydrants are available in three versions: only with space for hose and fire hose nozzle (in basket or reel), with additional vertical space for up to 6kg extinguisher and with additional horizontal space for up to 6kg extinguisher.

HW-52 (reel)

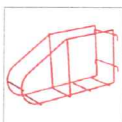

Model and hose length	Width (mm)	Height (mm)	Depth (mm)	Hose length (m)
HW-52N-15/20	500	600	180	15 or 20
HW-52-W-15/20	460	560	180	15 or 20
„K” Model - additional vertical space for extinguisher				
HW-52-N-K-15/20	740	600	180	15 or 20
HW-52-W-K-15/20	700	560	180	15 or 20
„KP” Model - additional horizontal space for extinguisher				
HW-52N-KP-15/20	600	840	180	15 or 20
HW-52W-KP-15/20	560	800	180	15 or 20

HW-52 (basket)

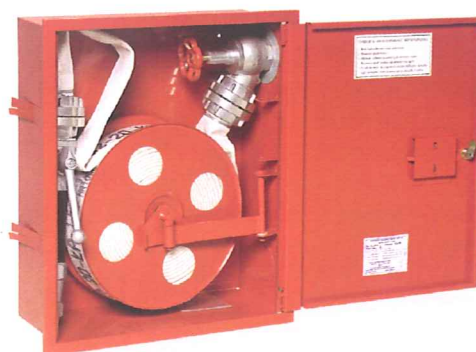

Model and hose length	Width (mm)	Height (mm)	Depth (mm)	Hose length (m)
HW-52N-15/20-Ko	420	530	180	15 or 20
HW-52-W-15/20-Ko	380	490	180	15 or 20
„K” Model - additional vertical space for extinguisher				
HW-52-N-K-15/20-Ko	740	600	180	15 or 20
HW-52-W-K-15/20-Ko	700	560	180	15 or 20
„KP” Model - additional horizontal space for extinguisher				
HW-52N-KP-15/20-Ko	600	840	180	15 or 20
HW-52W-KP-15/20-Ko	560	800	180	15 or 20
