

Art.No 21-20-55

### Technical details

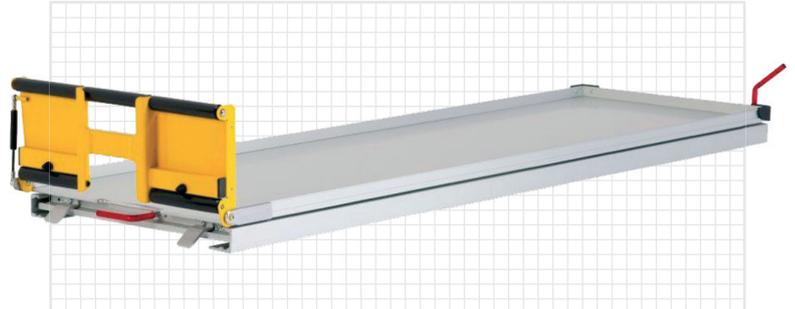

Length	2000 mm (external with ramp & handles 2260 mm)
Width	570 mm
Weight	48,2 kg
Height	92 mm with sideways sliding 185 mm
Loading capacity: 200 kg	

- Made of anodised aluminium (table top 3 mm thick)
- With a foldable ramp, which is assisted with gas spring
- Out drawable 400 mm
- forward movement in vehicle 250 +200 mm

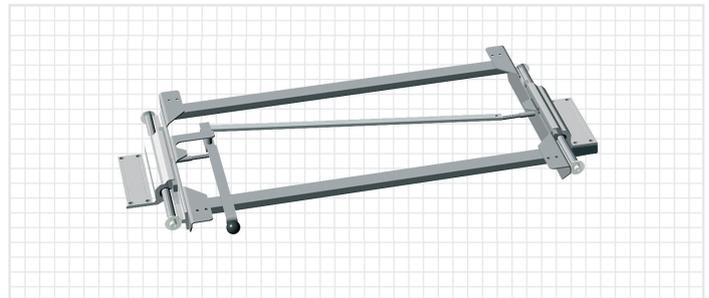

Strong aluminium profiles and linear bearings guarantee smooth and quiet operation

The platform can be mounted direct onto the ambulance floor or on diverse bases/ lifters. It can be equipped with case for scoop stretcher or with the sideways sliding.

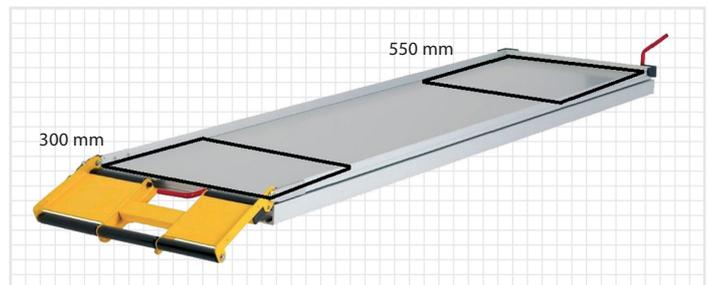

The platform is tested according to the **EN 1789 standard**. It is reinforced for different kind of stretcher locking. (The locking of the respective stretcher must be ordered from the stretcher manufacturer).
