

**TRELLCHEM**<sup>®</sup>  
THE SAFETY STANDARD

## TRELLCHEM<sup>®</sup> SPLASH 900

Splash 900

Full-body splash protection for use by both emergency back-up teams and industrial use where a gastight suit is not required, yet still good protection is needed. Provides specially good protection against acids and alkalis. Designed to carry a breathing apparatus outside the suit. Trellchem<sup>®</sup> Splash 900 is fully certified in accordance with the European standard EN 14605.

### GARMENT MATERIAL

The Trellchem<sup>®</sup> Splash 900 material is made from a strong and flexible polyamide fabric, which is single coated with yellow PVC. This construction provides a soft and durable material with good resistance to a wide range of industrial chemicals. There is an option for double coated fabric. Both fabrics are antistatic to EN 1149-5.

### COLOR

Yellow (standard material).

### STANDARDS

- EN 14605, type 3 ("liquid tight")
- EN 14126 (infective agents)
- EN 1149-5 (antistatic suit material)
- Approved for use in explosive environments, Zones 1, 2 / 20, 21, 22 only and Group IIA, IIB, according to ATEX Directive 94/9/EC

Splash 900 face seal

Splash 900 with attached PVC safety boots.

The Splash 900 has a long watertight PVC zipper, which is placed on the back, across the shoulders.

## DESIGN

Non-encapsulating design with face seal and without hump, BA worn outside the suit.

## FACE SEAL

The rubber face seal is anatomically designed for optimum safety and comfort. It provides the user with a tight, yet perfectly comfortable fit around the face. Option: Attached mask (possible only with some mask types).

## ZIPPER

Watertight PVC zipper placed horizontally on the back, across the shoulders, for easy donning. The zipper is protected by a splash guard (flap).

## GLOVES & ATTACHMENTS

Butyl rubber gloves as standard. The gloves are attached with the Trellchem<sup>®</sup> Bayonet glove ring system, which offers quick and simple glove exchange. Option: Chloroprene rubber, PVC or Viton<sup>®</sup>/Butyl rubber gloves.

## FOOTWEAR

Attached yellow PVC safety boots, alternatively socks or open double legs. Option: Nitrile rubber/Firemen's boots.

## REINFORCEMENTS

For extra durability, the suit is fitted with reinforcements on elbows and knees.

## SEAM

Double welded seams.
