

Lighting for TrellTent 3/2 and 3/4 type Viking

Technical specification

Make:

Viking

Type:

Viking 236 Std incl.socket 5m cable HO7RN-F 3G1,5

General construction:

Aluminium casing with un-breakable makrolon front laminar and shock absorbing gables. Two fluorescent tubes of 36 W each of type TCL/840 in one lamp. Totally 6 lamps.

Components for one TrellTent 3/2:

12 pcs Attachment straps 800mm
1 pcs Extension cord 10m HO7RN-F 3G1,5
1 pcs Cable drum 20m 4 sockets
1 pcs Transportation box 1138x377x690 mm

Cable:

Adopted for the tent made of oil-proof, HO7RN-F 3G1,5.

Voltage:

220 V 50 Hz

Power consumption:

85 W for each lamp

Light output:

1500 lux 1m on axel

Packing:

Transportation box

Fixation:

Straps included

Weight :

Of lamp, 4 kg
Of one set, 34 kg

Protection:

IP 54

Expected length of life of the tubes:

9000 h

Shock resistant:

Yes
