

X190

THERMAL IMAGING CAMERA

The X190 thermal imaging camera, powered ISG technology, is a tactical support camera with basic functions. Developed to be a simple one button ON/OFF operation, the X190 uses firefighting -specific core technology that operates with the same principles found in the X380. This capability provides uniform scene interpretation across the range of cameras which simplifies training requirements between each camera model.

Key features include:

- Easy to use, one-button, simple operation
- Tactical Color - Achieve crisp, clear image performance in temperatures above 2000°F with our unique transparent color
- Intelligent Focus™ - See an object in crystal-clear detail with no manual adjustment required
- Full size 3.5" - No sacrifices in LCD size

ORDERING INFORMATION

Part Number	Description
8005071	X190 Camera with Two Batteries. Ships with a Lanyard, and Desktop Charger in a carton. Two years of warranty. Fahrenheit V-01
8005072	X190 Camera with Two Batteries. Ships with a Lanyard, and Desktop Charger in a carton. Two years of warranty. Celsius V-02
8005073	X190 Camera with Two Batteries. Ships with a Lanyard, Truck Charger in a Carton. Two years of warranty. Fahrenheit V-03
8005074	X190 Camera with Two Batteries. Ships with a Lanyard, Truck Charger in a Carton. Two years of warranty. Celsius V-04
8005075	X190 Camera with Two Batteries. Ships with a Lanyard, Desktop Charger and Truck Charger in a Carton. Two years of warranty. Fahrenheit V-05
8005076	X190 Camera with Two Batteries. Ships with a Lanyard, Desktop Charger and Truck Charger in a Carton. Two years of warranty. Celsius V-06
8002931	Drive-Away Detection
8002930	X Series Retractable Lanyard
8002926	X Series Desktop Charger
8002927	X Series Fast Attack Charger
8002965	X Series Standard Battery

X190 THERMAL IMAGING CAMERA POWERED BY ISG TECHNOLOGY

Lightweight Design - At only 2.5 pounds, the X-Series of cameras are some of the lightest thermal imagers on the market today. The pistol-grip handle is easy to hold with gloved hands and the balanced design limits torque on the wrist, reducing fatigue.

Intelligent Focus™ - See an object in crystal clear detail, hands-free. No turning knobs or throwing switches. The camera automatically adjusts to provide superior image quality even at temperatures above 2000°F (1093°C). Easily and quickly switch between high and low temperatures by placing the crosshairs on the object you wish to measure.

Tactical Color - Achieve crisp, clear image performance in temperatures above 2000°F (1093°C). As the temperature increases, colors grow in intensity from gray, yellow, orange, to red. Unique transparent color capability enables firefighters to see structure through the colorization.

For more information, contact your Scott representative or distributor today, or call 800.247.7257.

X190

The X190 is the latest addition to the Scott portfolio of thermal imaging cameras.
