## APG - The All Pressure Gun

### How to operate

Press the trigger to select spray-pattern. From shut-off via protecting screen and fog, to jet. The trigger can be locked in any of five positions.

### Applications

Fireextinguishing with high or medium water pressure. Generates very small droplet sizes. Also well suited for heavy industrial use.

### Material

Stainless steel and chromeplated brass with rubber and plastic covers. Lubricated with silicone oil. Requires a minimum of maintenance.

### Operating pressure

10 - 50 Bar

### Weight

2.5 Kg

### Measurements

Length: 40 cm, Nozzle Ø: 6.4 cm, Handle: 10 cm

### Connections

The swivelling inlet can be supplied with any thread connection

### Capacities

Pressure Bar	Jet		Fog 120°	
	Flow lpm	Range meters	Flow lpm	Range meters
10	100	19-22	140	max 13
40	160	22-26	200	max 15
