

Collective Decontamination Tents

Our compact collective decontamination tents can be installed by 2 people in only 5 minutes using our electrical inflator.

The speed and easiness of installation make our tents ideal for an emergency response to contamination.

Robust, resistant and pre - equipped (built in hoses, separations, insulation...) our decontamination tents can be used on all types of terrain.

All the materials from which our tents are made are specially treated to resist to the harshest climates.

Our tents have 3 separate parallel compartments, each of them used as an independent decontamination line: women/men/people on stretcher. Each line is itself composed of 3 zones:

Entrance and undressing zone, shower and rinsing zone, control and dressing zone.

Support and implementation of our decontamination solutions is carried out by our specialists all over the world.

Colours:

- White
- Orange

Characteristics:

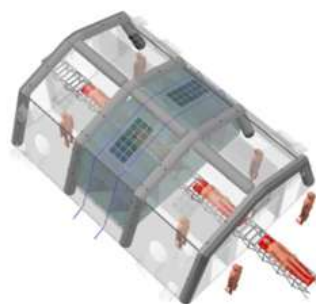

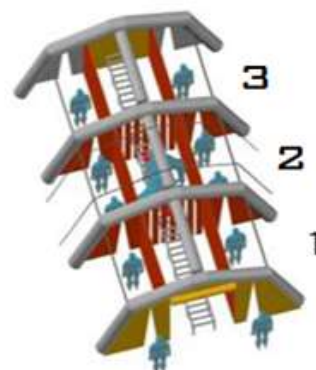

- 6 doors
- 3 lines
- 3 shower cabins
- Inflatable frame
- Complete hydraulic system
